

**WMPA is taking the following precautions to protect our patients and help slow the spread of the coronavirus and is in effect during the pandemic.**

---

- Office seating in the waiting room and in therapy rooms has been arranged for appropriate physical distancing.
- My staff and I wear masks in the common areas of the office and practice social distancing
- when possible.
- Restroom soap dispensers are maintained and everyone is encouraged to wash their hands.
- Hand sanitizers that contain at least 60% alcohol are available in the therapy rooms and at the reception counter.
- We schedule appointments at intervals to minimize the number of people in the waiting room.
- We ask all patients to wait in our waiting room if social distance seating is available or in their car (after checking in) until I am ready for your appointment.
- Credit card pads, pens and other areas that are commonly touched are thoroughly sanitized.
- Physical contact is not permitted.(e.g. no shaking hands)
- Tissues and trash bins are easily accessed. Trash is disposed of on a frequent basis.
- Common areas are disinfected at the end of each day.
